

**FACEME<sup>®</sup>**

## PARTNER

Cyberlink Co Ltd is a multimedia software company. It develops and markets digital video and audio application software. The company offers its products in the areas of media entertainment, video editing, photography, e-learning, backup and burn, webcam apps and media creativity suite, among others.

## SOLUTION

FaceMe\*, their edge-based AI facial recognition SDK solution is highly optimized for OpenVINO™. With OpenVINO™ toolkit acceleration enabled, the speed of FaceMe®'s facial recognition is improved by 500% (from 4.5fps to 23fps).

## RESULT

**500%** FPS INCREASE WITH OPENVINO ACCELERATION ENABLED

**17.4X** SPEED IMPROVEMENT WITH INTEL VPU OVER INTEL CPU

Public

## CUSTOMER

Using these Intel technologies with FaceMe\* not only enables use cases otherwise impractical or even impossible, but it can generate significant savings for customers.
