Request For Proposal: Vendor Checklist (RFP)

	Facilities System:			
	Vendor:			
	Date:			
Item	**Indicator**	**Yes**	**No**	**N/A**
1.	Does the system, as a requirement for its operation, have any chemicals integral to the unit? If yes, attach list.			
2.	If "yes" to Item 1: Provide MSDSs to Intel.			
3.	Have all electrical, thermal, mechanical hazards been identified? Are hazard warnings/guarding in place?			
4.	Has a Nationally Recognized Testing Laboratory (NRTL) or Third Party electrical inspection been performed? If "yes" provide documentation.			
5.	Is the equipment labeled with the "CE" Mark? Key EU directives that the equipment must meet as a minimum are: Machinery, EMC, Low Voltage. (*Note: This requirement is only applicable to systems intended for use within the European Union.*)			
6.	Has the Intel "*Facilities Equipment Design Ergonomics Checklist"* been completed?			
7.	Has a Sequence of Operations (SOOs) document been prepared for the system including start-up and shutdown?			
8.	Has a formal Hazards Analysis (e.g. PHA) been performed on the system? If "yes" provide documentation. (*Note: It is not an Intel requirement that the vendor perform this analysis. However, if one exits it should be supplied to Intel.*)
